### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Carlos Tellez-Rodriguez on February 21, 2008.

The application has been amended as follows:

In claim 10, line 1, the phrase, "*or prevention*" has been deleted.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to a propionamide derivative of formula (I) and a method for using said derivative. The closest prior art of record, i.e. references listed on the attached PTO-1449 and PTO-892 forms, teach *similar* compounds, but fail to disclose or suggest compounds consisting of the substituent R1 as recited in the instant claims. The closest compound taught in the prior art consists of a -CF<sub>3</sub> group that would correspond to R1. While R1 of the instant claims may be a -CH<sub>3</sub> group, i.e. a methyl group, a person having ordinary skill in the art would not have found it obvious to substitute a -CF<sub>3</sub> group, which is an electron-withdrawing group, with a -CH<sub>3</sub> group, which is electron donating. The two substituents confer different reactivity, and therefore would not have been *reasonably expected* to confer the same biological properties to the propionamide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
